OLD-BRULE HERITAGE SOCIETY JUNE GENERAL MEETING

Thursday, June 22, 2017 at 6 p.m., Lakeside Town Hall

This will be a Midsummer Scandinavian Dinner work day at the Lakeside Town Hall, and a Davidson Windmill clean-up day. We will start the meeting with our pot luck luncheon, and then go directly to our business meeting. Please bring a dish to pass or refreshments to share for our meal which will start at 6 p.m. We want to thank the Midsummer Committee members for all their hard work, and those who will be serving at the Windmill grounds. Thanks to the Town of Lakeside for the use of their hall and its serving facilities throughout the weekend. Guests and friends are always welcome at our meetings and events.

FROM THE EDITOR:

Despite the severe disruption of Archive work routines it is heartwarming to see the walk-out vault and basement appear for the Old-Brule Heritage Society Monticello School Museum & Archives (OBHS MSMA) facility. The school has yet to be moved onto the bottom floor, but it takes little imagination to see now how beautiful a site we will soon have to work on and within. Even the cement truck drivers have commented upon the natural beauty of the spot. I've taken lots of photos of every phase of construction, and with the help of the workers we've collected a large number of artifacts from what might be called a huge archaeological shovel test. I intend to pull together a program sharing the process and these finds. The remains certainly confirm that the site once had many school desks that ended up broken into cast-iron pieces and burned and buried on the hillside...a surprising lack of economy from a time we think of as less prosperous than our own. Many different kinds of old bottles and cracked plates and pottery are mixed in the finds, and one large turquoise bead. Even a well sand point came up from under the school's new site.

What's next is the process of restoring what looks like an abandoned relic into a working 1890 school museum. Desks and blackboards continue to be gathered to fill the space, but wall, ceiling & floor restoration, and even structural member replacement and strengthening will be needed. Slight modifications to allow handicap accessibility will be done so as not to disturb the experience of seeing an educational facility shared by so many of our grandparents and great-grandparents, and even those who came before. One hundred and twenty-seven years ago this became the new school to Rautio ancestors of Olga Lintula whose descendants provided three more tiny old desks from a school of this vintage. We will strengthen the rafters and stud walls under the bell tower which will hold the restored school bell salvaged from a Waino School which burned, held in trust for us by Dicky Tuura.

This is all the result of planning and fund raising that actually started fifteen years ago about the time my grandmother, Esther Pollari, died. In settling her estate it was decided that part of her land distribution in the heart of downtown Maple would go toward acquiring the historic school and town hall lot on the southeast corner of US Highway 2 and County Road F, once owned by Thomas Nephew, one of the Town of Brule's early town chairmen, and then by the Town of Brule for Maple school purposes, and next door for Brule Town Hall purposes, later that of Maple. Karen Pollari Simpson and Delores Pollari Pellman, as heirs jointly acquired the lot, one next door to their father's old Maple Garage, which has now made its way with the legal work of Steve Ledin of Superior, pro bono, and thousands in grants and gifts to become the budding reality of our OBHS MSMA facility.

The fund raising is still not done and we need your help. On faith that support will continue, sewer and drain pipes have been buried under the concrete floor, waiting for the day a holding tank can be installed and a well drilled. We'll be doing a lot of singing, and calling and beating on doors for gifts and funds to carry us forward. Our motto might be "If we restore it, they will come." The Davidson Windmill grounds have a partner site now anchoring our past. There are many more to thank, and we hope for many more to join us, all volunteers, in our preservation and sharing effort, honoring & remembering our freedom loving pioneers. Thank you all.

-Jim Pellman, Archives Committee

ARCHIVES/COLLECTIONS COMMITTEE.

The Archives Committee would welcome more volunteers to help in this important part of our OBHS mission. Our continuing project is learning to use the computer in support of our work, scanning, interpreting and indexing documents and photos, storing clippings and records and creating databases. The future holds more work on temporary and permanent exhibits using items in our collection, which the MSMA school space will permit. Our thanks go to our loyal committee members and document and artifact donors, and to the Town of Maple for Archive storage space. If you enjoy exacting work and interesting conversation please join us at 1 p.m., still at the Pellmans' on a Monday afternoon. Next meeting is yet to be determined. We expect our old routines to change as we transition to our MSMA site over the next few months. Please call Jim at 715-363-2549 to confirm the next meeting time and place.

**Unapproved MINUTES for the APRIL GENERAL MEETING
OLD-BRULE HERITAGE SOCIETY, INC.
Wednesday, April 12, 6 p.m., Brule Town Hall**

A pot-luck buffet was served at 6:00 p.m. Thanks to everyone who organized the buffet table and/or contributed to this delicious meal and to those who helped set up and take down tables and chairs. Thanks to the Town of Brule for use of their hall and facilities. Thirty-seven members and guests were in attendance.

The program which followed was presented by Brian Paulson, Randy Jones, and Audrey Hakkila, members of the History Writing Committee for the Village of Poplar. They shared information that will be part of the Poplar Centennial history book to be published before Centennial events begin this summer. Those in the audience were treated to historical photographs from the earliest Poplar history, as we know it, to some later images that brought memories to the surface. As always, many questions were asked and addressed. Thanks to our speakers and to the entire committee for doing this very important work for the Village of Poplar and the surrounding area.

Area History: No. 116

This picture and text appears for the month of July in our 2017 OBHS Historical Calendar.

14.17-07. Duluth, South Shore & Atlantic Railroad Locomotive #202 at the Winneboujou Station on the Brule River, c. 1905. We appear to be looking northwest in this amazing image from a location just west of the Brule River in the Town of Old-Brule. The date may be earlier. For some reason the passenger car that this excursion group has been riding, or appears to be boarding, has been de-coupled. Two conductors appear to be supervising the activities. The car and the Ashland bound 202 may be on a sidetrack. The DSS & A in this far western branch of the line was built in 1893. The 202 was transferred in 1907 to the Mineral Range Railroad, owned by the DSS & A, in the UP of Michigan where the bulk of the DSS & A's trackage and business was located, heavily in the mining district off a long spur running north. The locomotive was a 2-6-0 Mogul built in 1884 by Baldwin. This western branch was abandoned in 1934 which led to the Stella Cheese operation pulling out of Lake Nebagamon located back up the tracks about five miles. The cluster of 16 passengers here were extremely well dressed, the ladies with hair carefully coifed, full length sleeves and long skirts, likely from, or guests of, the nearby Winneboujou Club which we believe gave the station its name. *Photo courtesy of the Brule History Research Group.*
