## **BOARD OF DIRECTORS**

Dennis Hill, Amnicon, President Mary Ann Gronquist, Parkland 2<sup>nd</sup> Vice President Jim Pellman, Maple, Secretary Trish Hursh, Poplar, Treasurer Matt Miller, Superior Assistant Treasurer Joe Autio, Superior Bruce Carlson, Superior Shirley Deterling, Poplar Arlene Hill, Amnicon Jim Mattson, Poplar Jody Swanson, Brule

ON WEDNESDAY, DECEMBER 11<sup>TH</sup>, WE WILL HOLD OUR NEXT GENERAL MEETING AT THE AMNICON TOWN HALL.BEGINNING AT 6 PM WITH OUR POT LUCK CHRISTMAS LUNCH, FOLLOWED BY A PROGRAM ON REGIONAL ARCHAEOLOGY AND HISTORY LED BY HISTORIAN DAVID PETERSON OF DULUTH WHICH HE'S CALLING "CARLTON COUNTY, MINNESOTA: ITS ANCIENT AND FUR TRADE HISTORY DEMONSTRATED WITH ARTIFACTS." Dave is a long time member of the Northern Lakes Archaeological Society (NLAS) which meets every third Monday of the school year months (October-May) generally at the Superior Public Library in their community meeting room, starting at 7 p.m. with a program following a very brief business meeting.

Carlton County was a focal area of intense and convenient use by Paleo- and Woodland Natives, Annishinabe (Chippewa), fur traders and explorers. The county is adjacent to Douglas County in Wisconsin to its east, and they have very similar histories. In fact the namesake for Carlton County, Reuben B. Carlton, is buried in the Nemadji Cemetery in Superior, Douglas County, Wisconsin. The Carlton County area is crossed by river and land commerce trails. St Louis, Nemadji, Moosehead, Tamarack, Stoney, Portage and Kettle rivers were major thoroughfares for movement of people and supplies. Artifact evidence shows Archaic 6,000 BP (Before Present) and Woodland 2,000 BP people were utilizing the river ways. Historical Annishinabe and fur trade era use is documented in Dave's talk by artifacts from 1600s through the mid-1800s.

Dave currently lives in Duluth, and is a retired school administrator. He is considered the go-to researcher and historian on fur trade era trade axes for which he has developed a compendium of hundreds of specimens allowing researchers to quickly identify the age and maker of the axe and source of manufacture. THOSE WITH OLD ITEMS IN NEED OF IDENTIFICATION ARE WELCOME TO BRING THEM IN AND NLAS MEMBERS WILL BE ON HAND TO TRY TO IDENTIFY THEM. WE WELCOME EVERYONE, YOUNG AND OLD. SLIDES WILL BE SHOWN. Thanks to Dennis for making arrangements, to the Town of Amnicon for the use of their hall, and to all who bring food to share. Our voluntary Christmas gift exchange will close out the evening. We pray for good weather, and thank all who come. Merry Christmas All.

## FROM THE EDITOR:

We have been dumped on by an early arriving winter, almost 30 inches of heavy moist snow in two quickly succeeding snowfalls. Duluth-Superior made the national news, and we all have been set back a few days digging out. There should be no complaints about lack of snow this year for those running the trails, and the attending pit stops, but snow over thin and slush covered ice could be dangerous so please take special care when out recreating on our lakes.

We'll be trying to push forward work in the basement of the Monticello School Museum & Archives (MSMA) this winter, but all other OBHS construction projects will have to wait until spring. Fundraising will go on with strong rumors of another music benefit late winter "to get her done" at MSMA. The in-floor hot water heating system will be going in next with help from experts and volunteers, with wiring, insulating, and sheetrock after that. Our new period windows and doors should be ready for spring installation. We're salvaging everything we can, including window panes, siding salvaged by the Kiskis from the old Maple Finn Hall, hardwood maple flooring from the old store building converted to the old Lahti family home, but new and restored will take their place where we have to. We'll have a choice of school bells with one complete with the ring thanks to Dickie Tuura and now the family of Hope Swenson who passed this summer.

Word has come that the N. P. Johnson School House on County Road FF in the Riverside Neighborhood of Brule has finally collapsed bringing much of the sadness many felt when the landmark Genereau Store, run for decades by the late, colorful, beloved Ethel Jondreau on Highway 2 in Blueberry, reduced to a pile of debris, went up in a spiritual smoke, just as the next door Blueberry Depot was being saved by OBHS. More dispiriting than the loss of these historic landmarks, the human losses of my aunt, Karen Pollari Simpson, and her cousin Norman Erickson, both near 80 and in very bad health, closed early chapters of my own personal life. We move on in memory of all this in the fall of 2019, not to forget my friend and OBHS Windmill benefactor, Gene Davidson who passed less than a year ago, and the Baillies of Brule who passed away later in the year.

- Jim Pellman

## **ARCHIVES/COLLECTIONS COMMITTEE.**

The Archives/Collection Committee would welcome more volunteers to help in this important part of our OBHS mission. If you enjoy exacting work, exhibit design, accessioning and interesting conversation please join us, we hope soon, under the Monticello School. Next meeting is yet to be determined. We expect our old routines to change considerably as we transition to our MSMA site once ready over the next few months. Please call Jim at 715-363-2549 to confirm our next Archives Committee meeting time and place. WELCOME!

#### OLD-BRULE HERITAGE SOCIETY Unapproved MINUTES for the OCTOBER GENERAL MEETING MAPLE TOWN HALL OCTOBER 9, 2019, 6:00 PM.

Attendance: The roster did not fully circulate, nine actually signed and the names of 25 people total were recreated, with an actual head count of at least 27 in attendance. We enjoyed our Pot Luck Supper: thanks to all who brought food and refreshments to share with thanks to the Town of Maple for use of the Town Hall.

**PROGRAM: "Back on the South Shore of Glacial Lake Duluth."** Members of the Northern Lakes Archaeological Society led a program that focused on our ancient shoreline in the OBHS region which shows up around the 1100 foot elevation, about 500 feet above the present height of Lake Superior. Where there was an exposed shoreline and glacial ice had retreated there were ancient Paleo hunters in pursuit, using flaked stone and then hammered copper for tools and weapons. Jim P. gave a very brief slide survey of our OBHS group and its activities for newcomers, and then quickly discussed a USGS topo map upon which he had blackened the 1100 foot elevation contour, approximating the shore of ancient Glacial Lake Duluth, and related it to the ancient lithic biface found by David Lindelof of Oulu who attended. Member Arnold Johnson had brought a Hixson silicified sandstone point, perhaps 11,000 years BP found near the Lindelof biface also found in his garden at 1100 feet. Larry Furo of NLAS followed with a thorough slide talk on ancient copper use and methods. Dr. Sue Mulholland later assessed the significance of the point and the biface. Dennis shared his recent trade axe purchases.

Our business meeting closed out the evening.

#### **BUSINESS MEETING**

CALL TO ORDER: President Dennis Hill called the Business Meeting to order at 8:50 p.m.

**MINUTES:** Motion was made by Audrey H. with a second by Jim M. for approval of the June 20, 2019 OBHS General Meeting Minutes which was held at the Lakeside Town Hall as printed in the August 2019 issue of the *OBHS News*. Motion carried.

#### **BAYFIELD APPLE FESTIVAL WINDMILL OPEN HOUSE REPORT. GROSS ALL ACCOUNTS: \$544.00**

**SIGNATURE CARDS**. New signature cards were done. Trish Hursh, now Treasurer, was automatically added to the signature list. The number of signers was to stay at four. Dennis & Matt, were retained, and Jim Pellman was added to the list. The issue of renewing our CD was reviewed at our September Board Meeting with the addition to it of the repayment of \$1,200 from the MSMA account. A motion by Matt carried stating that after October 16<sup>th</sup> the Treasurer would close the current CD and a new CD would be purchased with the MSMA debt restored (approximate total new balance of \$5,888.94) at National Bank of Commerce, Poplar. Basil E. moved to accept the Treasurer's Report, second by Jim M. Motion carried.

#### **OLD BUSINESS:**

#### **COMMITTEE REPORTS:**

**ARCHIVES/WEBSITE:** This committee remains semi-dormant until working space is available at MSMA. Thanks to Earl who continues to update our Website from his home computer Construction has resumed at MSMA with a motion passed at the September Board Meeting that we proceed with construction with a goal of the Archive Committee entering a heated work space by December 31, 2019 if possible.

**MEMBERSHIPS:** Membership renewals can now be paid for the upcoming year. Membership continues to remain constant. Dues and categories remain constant. For reports on total membership, we sum all categories (individual, family, and business) by individual count.

**MSMA PROJECT:** Longer term goals for more fundraising events will address the need for water and a septic system. A sand-point well once served the schools and town halls, and an over-flowing crock in the Bardon Creek headwaters stream served the local people at a Maple Town Park cooking pit at the edge of the stream. Times change but we need to look fully into our options. The Treasurer was to look into applying for a Menard's charge card and to make that available to MSMA Chair Jim Pellman. It was understood that \$5,000 was now available in the MSMA account for construction use.

**WINDMILL/GROUNDS:** The Board Reviewed Windmill Committee Structure, members and Chair. Windmill Painting Project was briefly discussed. The project would be held off until spring. At annual meeting Ron H. mentioned 2 part paint formula. The discussion went to historically appropriate repairs to the Windmill and restrictions under National Register standards. Reviewed memorial bronze plaque for Gene Davidson. Estimated cost \$418.00, 8"x11"

**MISSION COVENANT CHURCH WINDMILL TOUR:** A seniors group led by Floyd Peters of the Poplar Mission Covenant Church will get a routine special tour of the Windmill Grounds. This would be on Thursday, October 17<sup>th</sup> from 10 a.m. until about Noon. Our tour guides and house hosts were to be contacted.

**BLUEBERRY DEPOT PROJECT:** On Windmill site on blocks. Approval has come in from DC zoning on variance. Ron H. and Brian P. will be working on the project.

**SAUNA PROJECT:** The pioneering Heikkurainens are believed to be the builders of the sauna. It might be reasonable to name the sauna for them. Windmill is on site on blocks. At the 2019 Annual Meeting a vote of 18 to 1 with 5 abstaining relocated the sauna more west, clearing the view of Eskolin House. Rejected was the location Jim P. continues to favor west of the Eskolin House. The depot and the sauna foundations work was to move forward together

**MERCHANDISE & PUBLICATIONS:** Boys of the Brule is proving popular and another order will be needed. Nan's Cable Publishing has a second edition now in print. Stocks have been replenished of intermediate shirt sizes but more are again needed after good sales recently at the Windmill. We'll need to look closely at our website to bring our offers there in line with what we have in stock, and prices will have to be adjusted in some cases. One of the first things to go into our MSMA basement will be a very small gift shop with inventory, and a blurb to say it's open. Mary Ann has gotten more copies of Robert Armour's Superior History Books which are available to us free.

**2020 Calendar. & Map.** (These two issues were not addressed at the Annual Meeting.) Jim with authorization is working on the 2020 Calendar. The Pollari memorial map is still moving. Jim will have to add several railroad features by hand.

**FRIENDS OF OBHS:** This Facebook group site of 1060 members is independent of OBHS. Thanks to Janine Seis and Nancy Moreland for their continuing work on this site on our behalf.

NOMINATIONS FOR BOARD OPENINGS FOR 2019-2020 remained open for one more new Board Member. Joe Autio, present, was nominated by Jim Pellman. Joe agreed to serve and was elected to the Board.

COMMITTEE CHAIRS: Was tabled for the night.

BYLAWS & JOB DESCRIPTIONS: Was tabled for the night.

BUDGET REVIEW: Tabled for the night.

**MSMA PROJECT:** Longer term goals for more fundraising events will address the need for water and a septic system. Available to MSMA Chair Jim Pellman. is \$5,000 was now available in the MSMA account for construction use, including window and door costs. Subfloor materials were purchased, delivered by Lee & Lora Olson, and yesterday installation was completed.

Basement design, purchase and installation of the Pex system will be completed shortly, with the third zone for under the school house level floor to be installed. Bathroom and utility room framing will first be completed once Pex tube is installed running through the floor joists. Wiring in these two rooms will be completed & plumbing that remains. The upstairs bathroom will be included in this work to integrate upper and lower bath plumbing & wiring. Wall will be insulated with fiberglass and then closed in with sheetrock. The electric furnace and manifold & valve system will be installed. Basement window & door framing and wiring will then allow insulating with fiberglass and sheet rocking will follow. On days of major sheet rocking we will tap volunteers to help. This will be done in a heated space.

WINDMILL/GROUNDS: The Board Reviewed Windmill Committee Structure, members and Chair.

Windmill Painting Project is postponed due to winter. Historically appropriate repairs to the Windmill and restrictions under National Register standards need to be addressed. A bronze plaque will be ordered. Discussion on roof repairs. We will look to patch holes.

**MISSION COVENANT CHURCH WINDMILL TOUR:** A seniors group led by Floyd Peters of the Poplar Mission Covenant Church visited the Windmill and grounds on Thursday, October 17<sup>th</sup> from 10 a.m. until about Noon. They group left us with a \$100 donation. Thanks to our tour guides and house hosts, & to Dennis for his contacts.

**BLUEBERRY DEPOT PROJECT:** On Windmill site on blocks. Ron H. and Brian P. will be working on the project. The early winter has put this project on hold. Good signage throughout our sites should be studied and added.

**SAUNA PROJECT**: The pioneering Heikkurainens are the builders of the sauna. It might be reasonable to name the sauna for them it the Erkkila family is not used. The sauna remains on site on blocks. The depot & sauna foundations work was to move together. This will be done in spring.

Verner Granroth's Fishing Station, Mouth of the Middle River, 1938 – 1951, c. 1943. Town of Lakeside. Standing at the dock next to the barge used for driving "pound net" pilings is young Earl Granroth and his cousin. Earl's father, Verner Granroth, a Swede-Finn, was a handyman, a skilled saw sharpener in a logging camp in younger days, a union carpenter who worked on construction of the Blatnik Bridge, a caretaker and builder for the lodge of Dr. DeVries on the shore of

Lake Superior at the mouth of Bardon Creek, and a Lake Superior commercial fisherman licensed in Wisconsin. During World War II Verner took a year off from fishing to take the dangerous job of construction work of Greenland military bases with Nazi submarines prowling along the North Atlantic coast. Verner had gotten started fishing by helping Dr. DeVries who netted fished commercially it is believed out of the mouth of the Amnicon River. By 1951 lamprey and fishing pressure had put an end to most of the Lake Superior South Shore commercial operations. Later sea lamprey weirs and lampricide treatments of the streams brought the Lake Trout numbers back with charter fishing a thriving industry in recent years. Verner deployed a twenty foot open boat when out on

the lake, built by E. Reuben Hill of Larsmont, on Minnesota's North Shore. *The picture comes from the Earl Granroth Collection with his permission, taken by his father.*
